About Me

▹ Hello! I'm Witold Pacholik. I enjoy designing robust system architectures, working with APIs and SQL databases, building scalable server-side applications, and striving to grow as a professional .NET developer.

Experience

.NET Developer Intern HELLO DIGITAL WORLD Sp. z o.o.

July 2025 – September 2025 (3 months), Remote, Full-time

▹ Developed and refactored backend code in C# using ASP.NET Core
▹ Designed, created, and optimized relational databases (MS SQL Server)
▹ Contributed to application architecture and project planning
▹ Configured and maintained developer tools, project environments and analyzed application performance
▹ Participated in agile team processes including code review and requirement gathering

Skills

Good knowledge
▹ C#
▹ ASP.NET Core (MVC / REST API, JWT, Cookies)
▹ SQL
▹ Git / GitHub / Bitbucket
▹ Unit Testing (NUnit, Moq)

Basic knowledge
▹ Java (Spring Boot, Hibernate)
▹ Razor
▹ WPF
▹ Entity Framework
▹ Docker
▹ Linux / Bash

Languages

▹ Polish – Native
▹ English – Intermediate

Education

▹ **2023–2027** Silesian University of Technology – Engineer's degree in Computer Science

Courses & Workshops

▹ **Corporate Readiness Certificate (CRC)** Java in Practice – conducted by ING
▹ Learned to work with Git, design patterns, relational databases, Angular, Spring Boot, Spring Security, Hibernate, unit testing, Maven, CI/CD pipelines, UNIX shell scripting.
